OS2.

THERMALLY BROKEN STEEL USA

Rightfully part of the Hall of Fame of the Italian Design, the OS2 frame series is a revolutionary statement in the continued development of *efficient steel window and door fenestration*. Aesthetically, the OS2 window series is the *perfect choice for replacement of historical "iron windows"* from the mid 19<sup>th</sup> to mid 20<sup>th</sup> century.

# OVERVIEW.

Since many of the same sections can be used to produce the OS2 series windows as well as the doors, the OS2 series doors have been proven to be the most innovative and efficient steel door of its time. Available with *countless hardware and glass options*, the OS2 door series is in a *league of its own*.
